## Hunting a Hole.

On the question of the English market the Review is evidently at some disadvantage in discovering some comfortable way of retreat from the responsibility of a wild statement. When we pointed out to the Review that England's present economic plans were not, as the Review supposed, instituted for the purpose of helping the farmer, that Mr. Cobden was a manufacturer and urged free trade on England for the purpose of securing cheaper breadstuffs, the controversy was at an end, and the Review, if it were honest with itself, should have so regarded it. That, however, would not suit the purpose of a Democratic paper, which is to cause the dissatisfaction of the American farmer with his condition, with the view of getting his vote, even if a sacrifice of truth is necessary to accomplish it.

The Review wants the American farmer to demand the same financial policy now in operation in England, and to vote the Democratic ticket. It promises the American farmer that if it will do so he will secure a good market for the Liverpool market for the English farmer in spite of the fact that the English plan of economy is a source of complaint for his laborers and employees. The Review also slights the fact that the Review's wheat market is open to the farmer of the world, but only so long as there is a demand among the people of England for bread. It is a limited market.

## The Original Package Bill.

In a speech which he delivered in the House of Representatives on the original package bill, referring to the decision of the United States Supreme court, known as the Iowa original package decision, Mr. E. B. Taylor, of Ohio, said:

Mr. Speaker, I do not object to this bill in the interest of any party, or in the interest of any State, but I object to it because it is the best interest of the whole people that it be rejected. There are few who would be willing to give up the Iowa package bill, and the Iowa package bill is the only one that is not a source of complaint to the whole people. It is the only one that is not a source of complaint to the whole people.

## The Price Rise.

BUFFALO, N. Y., July 24.—The Erie County Athletic Club offers \$2,500 for a champion and come to Buffalo to fight here. Since the San Francisco contest is probably off. This is a larger offer than was made by the Young Men's Gymnasium Club of New Orleans.

## Base Ball by Electric Light.

HARTFORD, Conn., July 24.—The attempt to play ball by electric light last night was turned into a burlesque. A soft ball was used and the batters only batted it. All the fielders played within the base lines. A large crowd was present. Only four innings were played. No score was kept.

## A Costly Incendiary Fire.

SPOKANE FALLS, Wash., July 24.—Incendiaries started a fire yesterday morning that destroyed \$600,000 worth of property in Monroe street, including the new bridge across the river, which cost \$40,000. The fire department was rendered almost helpless by the lack of water. Five suspects have been arrested, and armed police patrol the city. The losses by the fire are: The Cable and Coal Company, \$100,000; Monroeville Bridge Company, \$40,000; H. W. Green, \$15,000; J. M. Co., \$15,000.

## Mr. Hoyle's Case.

Mr. Hoyle's case is emphatically that Mr. Hoyle and the President are in entire accord. Mr. Hoyle is upholding the administration in every particular.

## The Evil Resulting from Habitual Costliness.

The evil resulting from habitual costliness are many and serious; but the use of harsh, drastic penalties is quite as dangerous. In Ayer's Pills, however, the patient has a mild but effective aperient, superior to all others, especially for family use.

**A WILD RUMOR.**  
No Truth in the Story of a Tragedy in the Keefe Orchard.  
All forenoon there has been a wild rumor on the streets that a boy had been fatally shot in the James Keefe orchard, southwest of the city. A REPUBLICAN reporter visited the Keefe place and soon found that there was no foundation whatever for the startling story, except that Emmett Keefe, a young son of Mr. Keefe, had fired off a gun in the orchard last evening as a warning to apple thieves, who have been trespassing, to keep away. Some of Emmett's companions, among whom was his guest, Desmond Maguire, of St. Louis, cried out as if shot, and then all went into the house to escape the rain. Nothing but powder was exploded. There was no load in the gun.  
All powder and smoke—nobody shot.

**Contracts Let.**  
Last evening the building committee for the new Presbyterian church held a business meeting and let the contract for the stone work and the excavation to Sims & Thain, the Joliet builders, who will break ground in a day or two. They agree to have the building ready for the roof Dec. 1st of the present year. The Lafayette bluff and blue stone will be used. The slate roofing, copper and galvanized iron contract was let to Sorgen & Son, Decatur. The other day it was stated that Herman & Son, of Dayton, Ohio, would do the stone work. This firm could not take the contract for the reason that other contracts now under way would prevent them from finishing the Decatur church in the time required.

**The Fall Meeting.**  
There is no rest for Secretary Taylor and the other officers of the Decatur Trotting Association. They are now busily engaged in making preparations for the fall trotting, pacing and running meeting, which begins September 24th and continues four days. A feature of the meeting will be a fine show of Macon county horses by farmers, for which special premiums will be offered. Get ready for the September meeting.

**Games in Sight.**  
Manager Spink, of St. Louis, is in correspondence with Al Morgan, planning to give a series of ball games in Decatur with the Sporting News and Prickly Ash teams. Al has taken the matter under advisement. Possibly he will get one of the five clubs in the Inter-State League to play off games in Decatur with the Sporting News.

**Wheat Raising Pays.**  
Occasionally a kicking farmer who is unreasonable enough to want sure wheat crops every year, will rue up and declare that Illinois is no reliable winter wheat country. M. P. Murphy's experience will prove that the opposite is true. He has been gathering wheat off his farm for ten years and every year he has kept an average of the yield. During the past ten years Mr. Murphy's figures show that the average yield per acre has been 10 bushels. This is regarded as very good, and proves that wheat raising in Macon county pays.

**E. G. Wilson**, a brakeman of Decatur on the I. D. & W. road, had a red morocco pocket book containing money and valuable papers stolen from his coat on July 5, of the I. D. & W. road, at Tuscola yesterday afternoon. The party committing the theft is known and it will save him trouble if he will leave the stolen property with the Tuscola agent or Mr. Wilson. If he does not he will have to suffer the consequences.

In the 2:24 pace Gypsy Goldsmith won, Lorry C second, Time, 2:28 1/4. The attendance amounted to a jam at Lake View Park.

C. M. Allison to Herbert Meritweather, deed to lot 5, C. M. Allison to Harry of lots 5, 6, 7, 8, 9 and 10, block 3, Wesco's addition—\$500.

There was great interest manifested at Monticello yesterday in the sensational arrest and trial of John W. Walker, the grain merchant and insurance man of Mansfield, Pitt county. He was charged with setting fire to his own building, which was occupied by Forney & Olmeyer with a large stock of dry goods. The prosecution failed to produce any evidence that Mr. Walker had anything to do with the fire and Judge Pipher ordered that he be acquitted.

**SECRET SOCIETY MEETINGS.**

**"Reality" Still in Decatur.**  
The 2:23 1/4 trotting mare, Reality, controlled by Buck Dickinson, of Greensburg, Ind., is still at Breneman & Watts' stable, under the care of Dr. Reid, by direction of the I. D. & W. company, on which road the mare and Tyro were injured in the collision July 17 at Long Creek. Monday Tyro was shipped to Greensburg by direction of Mr. Dickinson, who refuses as yet to accept Reality. She is said to be coming out of her jar with reasonable speed. In the shock she received a severe jar, being thrown headlong from one end of the car to the other, falling on her hips. Daily she is given proper exercise. She is walked three and four blocks at a time. It is believed she will be all right again in a week or so.

**THE BOSTONIAN'S VISIT.**  
Struck With the Beauty and Business Energy of Decatur.

Hon. William W. Lowe, the capitalist from Boston, Mass., who closed a \$400,000 deal in Chicago on Monday and has a \$100,000 interest at Sioux City, Iowa, left for the east last night, after a day profitably spent among the industries of Decatur. In company with Hon. John A. Brown he visited the two flouring mills, the coal shafts, the ice factory, the shoe factory, the furniture factory, and inspected the sewer and street-paving improvements, meeting and conversing with numerous manufacturers and business men. While at the Shellabarger mill he visited the tower and had a far-reaching bird's eye view of Decatur and the rich agricultural region surrounding the city. Mr. Lowe was very favorably impressed with Decatur and with some enthusiasm declared that Decatur in the line of beauty, railroad facilities, industries and energy of its population, was by far the best city of its size he had seen anywhere in the west. It may be stated *sub rosa* that Mr. Lowe has designs on Decatur that will be greatly to our advantage and that he will give our city a good name in the commercial world at Boston where there are "dead loads of money" seeking profitable investment in the west. What would you think if Decatur would soon have another furniture factory turning out a line of goods different from that made by the Decatur company and also a men's shoe factory? They are possibilities.

Mr. Lowe was about right when he predicted that at no distant day Decatur will have a population of 50,000.

The Bostonian's visit means business. Look out for good news.

**NO LET-UP IN THE CHASE.**  
Latest Developments in the Foster Outrage Case.  
Chief of Police Raymond, of Hannibal, Mo., sent a letter to Decatur to-day stating that a party has been arrested there on suspicion of having assaulted Mrs. Foster. He is said to answer the description. He had on a cowboy hat, but in his valise was a small black hat and soiled clothing. He is 30 years old and had shaved off his mustache. He acts very strangely. Marshal Mason, who left for Hannibal yesterday for H. H. Clark, the Singer sewing machine embezzler, will see the suspect to-day, and possibly he will be brought to Decatur with Clark.

The suspect taken in tow at Cerro Gordo yesterday morning on suspicion of having assaulted Mrs. Julia Foster, was not brought to Decatur last evening for identification as was arranged by wire. After further consultation with the constable it was found that the suspect did not answer the description fully and he was allowed to continue his tramp toward the rising sun.

This morning Mrs. Foster and her husband, Mrs. Sheehan and others visited Niantic on a mission. They were there to quietly look at a party under suspicion.

A delegation of farmers from the vicinity of the Foster home left Decatur last evening in vehicles and on horseback to resume the search for the assailant. They were to start at 3 o'clock this morning for Mt. Auburn in Christian county. One farmer said: "Don't think that the interest in this class has died out. There will be no let-up in the search until the second is run down and punished for his atrocious crime. Over 50 of the farmer friends of Foster have been out of the fields since they first heard of the assault on Monday afternoon, and all of us will hot everything go until the fellow is found or there is no hope of unearthing him."

**THE ELECTRIC STORM.**  
Damage by Lightning—A Man Prostrated and a Horse Killed.

The innocent looking storm which came down gently upon Decatur last evening from the north became vicious as it swept over the city, and what was the heavy fall of rain and forked lightning and crashing peals of thunder the sealer was anything but a welcome visitor. There were two especially sharp flashes of lightning and the first was quite close to everybody in the business part of the city, so near that everybody but one man said: "That struck something in town." The one man insisted that it was not nearer than five miles distant. It was away off in his estimate, at the windy mark.

At the time of the first flash two well diggers, W. M. Gilmore and O. C. Cooper, both from near Chicago, were standing in a horse stall at the northeast corner of the J. H. Wilcox barn on East Main street. They were facing each other close to the open windows. When the flash came Gilmore fell to the floor in a heap, and Cooper went whirling out of the door involuntarily, but he kept his feet and ran to the office, out of which Mr. Cooper had been working at the same moment. Just then a horse started and fell heavily to the floor and a small dog standing in the west entrance went howling down the incline as if he had a tin can tied to his tail. Hurrying back to the east end of the barn, Cooper found Gilmore lying on the floor, completely stunned and unable to move a muscle. It was thought at first that he was dead, but when Dr. W. B. Hosteller arrived signs of life were discovered and after a time it was clearly apparent that the man would recover the use of himself. The physician was assisted by Barn Walker in the treatment of the man. Gilmore is a young man not more than 32, of the Wilcox Central Park, caught fire from lightning and the department hurried out to find the wooden cover of the rheostat in the shop in flames. There is a ten horse power dynamo in the shop, used to operate the machinery and blow the forges. Lightning came in the wires and fired the wooden frame. The flames were quickly suppressed.

**FEEL THE SHOCK.**  
Mrs. Hoover, residing in the Breneman block on Franklin street, and Mrs. A. J. Dunham, whose home is not far from the Wilcox barn, were prostrated by the lightning. The latter was recovered, but some time elapsed before the former recovered. Two physicians, Dr. Heil and Dr. Farmer attended her.

**AT CRENA.**  
Lightning struck the dwelling of Dr. Andrew McBride at Orens and shocked Mrs. McBride so severely that the doctor had to devote his whole attention to her restoration, which came in a short time. The dwelling was not damaged. There was a heavy rain in that part of the county.

There were a dozen of us in a smoldering car on the Lake Erie and Western during the closing days of the last presidential campaign, and of course we compared notes.

"Gentlemen," said a New Jersey banker, "I'll bet \$20,000 on Harrison."

"Right now?" asked a man who came forward all of a sudden, having an old carpetbag in his hand.

"Yes, sir."

"P. y. w.," which means produce your wad," said the stranger, and opening his carpetbag took out a roll of bills as big as your leg.

"That is I will bet \$20,000 that he gets the popular vote, stammered the banker.

"C. d. w. t. r.," which means come down with the rhino," replied the stranger as he fished for his bundle again.

"I haven't got \$20,000 with me, but I'll see you later."

Exactly. And of the rest of you gentlemen any thing to say?

"I bank on Cleveland," remarked one.

"H. m. d. y. w.," which means how much do you bank," asked the stranger as he waved his wad on high.

"Oh I don't care to bet."

Does any one else?

No one did and he took up his carpetbag and retreated into the next car. I found him there an hour later, and ask him for the roll of bills or bluffing.

"Here," he said, and you can judge for yourself," he replied as he took it out.

I'm telling you straight when I say that he had \$25 in bills wrapped in an old piece of canvas—not a dollar more.

I haven't got no aristocratic blood in me," he said, as he put the roll away again, "and I haven't put my nose up at any one."

For these reasons I travel with an effect which the same is this. C. a. m., which means come and see me with anything in the shape of a bet—New York Sun.

Where Our Greatest Wealth Is.

In the region beyond the twenty-eighth meridian west of Greenwich the initial point being St. Paul and its final one North Platte Neb., while on the south it extends eastward to Fort Worth, Tex., eighteen states and territories were visited and traversed. The contrasts offered by it to the solitude of 1893 were almost amazing. West of the meridian named the old driver noted at least 20,000 miles of railroad and of telegraph wires not less than 150,000 miles. Of telephone and electric light cables, in proportion to population, there are more miles in use than elsewhere within the United States. There is today more property owned per capita than anywhere else on the continent. Two-fifths of the national domain is west of the line giving and our twenty-three-fifths of the remaining public lands of the United States must be sought for in the same region, and that, too, without considering Alaska. Yet how few persons are cognizant of the fact that east and west the geographical center of this Union is somewhere in the Bay of San Francisco, for with the Alaskan islands flying our flag within fifty miles of the Sierra Nevada, our domain extends, on a northwestern and southeastern line some 3,000 miles beyond the Golden Gate—Richard J. Hinton in Forum.

A Golden Orchid.

Among a great number of cyprinodonts, among received at St. Albans and 'es' tablished Mr. Sander noted one special one of which the flower stalk was yellow instead of brown as is the usual Sharp eyes are a valuable item of the orchid grower's stock in trade, for the smaller peculiarity among such sports—'objects' which should not be neglected—only one among thousands one might say myriads since cyprinodonts are one of our oldest and commonest orchids and it never showed this phenomenon before. In due course the flower opened and proved to be all golden. Mr. Sander sent his plant in two, sold half for \$75 to a favored customer and the other half publicly for 100 guineas—Longman's Magazine.

Secretary Noble's Clerk.

Secretary Noble, soon after he came to office, appointed as his secretary Horton Pope the son of Gen. John Pope, of St. Louis. Mr. Pope is a very efficient and pleasant young fellow and was inclined to perform his duties to the best of his ability. When the secretary called upon him to deliver a paper at the banquet given at the city by the regiment and went back to St. Louis. Another young man was found to take his place but he is merely an amanuensis, and not consulted in any way about the affairs of the department—Chatter.

Combinations in Donkeys.

Dr. Benj. A. Frankfort (Germany) mathematician, calculates that two persons playing dominoes ten hours a day and making four moves a minute could exhaust all the combinations of the game, the total number of which is 248, 528, 211, 940. Figures never lie, but they sometimes tax our credulity to its utmost capacity—St. Louis Republic.

Not His Beasts.

A—Did you hear that the thief and desperado Buckshot Jack had been killed?

B—No. Did with his boots on, I suppose.

A—No indeed. He died with another name—robbed a shoe store—Travis Sittings.

They Don't Observe.

A Boston artist sketched an average sunset—just such a one as is seen 100 times a year—and had five witnesses to verify the accuracy of his work. His sketch had no sunset been hung out for 90 per cent of the artists declared that no man in America had ever seen such clouds in the sky—Detroit Free Press.

London has a boy cartoonist. He is only 10 years old, but is said to be remarkable work. He made a sketch of Mr. Chamberlain, and sending it to him, Mr. Chamberlain received a letter in the Grand Old Man's own handwriting thanking the little artist and wishing him every success in his future operations.

The United States was one of the first nations to set the example of creating public holidays, which had a direct reference to the people's achievements in their own behalf. The observance of the Fourth of July dates from its first anniversary, and has never been interrupted since the establishment of the republic.

# MAN A LIFE

HAS been saved by the prompt use of Ayer's Pills. Travelers by land or sea are liable to constipation or other derangements of the stomach and bowels if neglected, lead to serious and often fatal consequences. The most sure means of correcting these evils is the use of Ayer's Pills. The practice of eating and drinking without regard to the health of the stomach and bowels is a sure way to ruin. The most common cause of constipation is the use of these Pills. Though prompt and energetic in operation, Ayer's Pills have no ill effects. They are purely vegetable and sugar coated, the safest for old and young, at home or abroad.

Eight years I was afflicted with constipation which at last became so violent that the doctors could do no more for me. Then I began to take Ayer's Pills and in a few days the bowels recovered their natural regular action, so that I was able to travel.
